

# GIS@UC San Diego

## Issue 11 – February 2010

---

### TABLE OF CONTENTS

#### Events & Opportunities

- GIS@UC San Diego Blog: <http://blog.ucsd.edu/gis>
- ESRI Education & International User Conference - 7/10
- Job & Internship postings in Data & GIS Lab

#### Data & GIS Lab Updates

- New URL: <http://libraries.ucsd.edu/gis>
- New GIS Guide
- Business Analyst is here!
- GIS data through Data Doors and GIS Data Depot

*Contributor: Tracey Hughes, UC San Diego Libraries GIS Coordinator*

---

## EVENTS & OPPORTUNITIES

### CHECK OUT OUR GIS BLOG!

As technology is moving forward, I'm trying to keep up with it! Thus, the blog for GIS@UC San Diego. Check it out at <http://blog.ucsd.edu/gis> and sign up for the RSS feed. It'll keep you current on what's happening with GIS at UC San Diego and provide interesting information on what's happening in GIS in general. All that without flooding your inbox – who could ask for more? ; - )

---

### ESRI EDUCATION & INTERNATIONAL USER CONFERENCE...JULY 2010

It's never too early to get your calendars in order...so mark yours for the ESRI Education User Conference (July 10 – 13, 2010) and the International User Conference (July 12 – 16, 2010).

As usual, everyone who has a **current** UCSD ID or who is enrolled at UCSD Extension during the conference time period can go to either the Education or the International User Conference for one day for free. Just go down to the San Diego Convention Center and show your ID. Nothing else necessary! If you think you or your team would benefit from having a full conference pass, email Tracey at [t2hughes@ucsd.edu](mailto:t2hughes@ucsd.edu) as we have a small number of full conference passes to distribute. Details for the conference(s) can be found at: <http://www.esri.com/events/index.html>.

## **EVENTS & OPPORTUNITIES (CONTINUED)**

### **JOB AND INTERNSHIP POSTINGS ARE UP IN THE DATA & GIS LAB**

As part of the regional GIS community, Tracey often gets job opportunities and internship announcements. These get posted in the Data & GIS Lab on our community board. They are dated so you can tell what's current, and even in this time of a challenging economy, jobs are out there for GIS professionals.

---

## **DATA & GIS LAB AND SOFTWARE UPDATES**

### **GIS@UC SAN DIEGO HAS A NEW URL!**

It's a little easier to remember than our other one, and it's <http://libraries.ucsd.edu/gis>. Check out our updated content and layout, and please offer suggestions on how we can do better to get our information about GIS out to you.

---

### **A NEW GIS GUIDE – FOR YOU 😊**

It's hard to know how best to help, but we're giving it a go using a tool called Libguides. Tracey has worked hard to create a resource that will serve the UC San Diego GIS community. Take a look and let us know what you think! It is found at <http://ucsd.libguides.com/gis>. Additional content will be developed as time moves forward and suggestions are welcomed.

---

### **BUSINESS ANALYST IS HERE...(AT LEAST ON ONE COMPUTER)**

We're in the process of updating the build on our Lab machines, and right now one of them has Business Analyst on it. We invite you to explore the vast datasets that come with that license, as well as the business and marketing specific tools of Business Analyst.

Right now, it's only on the computer in the corner of the Lab farthest from the staff desk, and should be available on all our machines (albeit with a 2 seat maximum concurrent use) by the start of Spring Quarter 2010.

---

### **I CAN BUY YOU GIS DATA THROUGH GIS DATA DEPOT AND DATA DOORS FOR ARCGIS**

The GIS staff purchased accounts to spend down at GIS Data Depot (<http://data.geocomm.com/>) and Data Doors for ArcGIS (<http://esri.datadoors.net/datadoorsweb/Order.aspx>). If you have GIS data needs that you think may be applicable to more people than just you, let Tracey know and we'll see what we can do.

As always, let me know how we can assist with your GIS needs. --Tracey Hughes, GIS Coordinator
