II. Scholarly Books

To find what books—printed or electronic—the UCSD Libraries own on the life and work of James Joyce or on any topic, use our catalog “Roger” (<http://roger.ucsd.edu>). Roger defaults to a keyword search, in which you can type whatever words you are interested in and hope for the best results. However, it is usually more productive to change to a **Subject approach**, by typing in approved Library of Congress Subject Headings.

II. Article-Length Criticism

Roger does not index scholarly journals or magazines down to the article level. To find scholarly and critical articles about Joyce, you need to use either online bibliographic databases, printed bibliographies, or browse in Joyce-related journals

1. Online Bibliographic Databases.

There are two online bibliographic databases that generally index most articles about Joyce. Both of them are accessible from the “Databases A to Z” list linked from the Libraries’ home page (<http://sshl.ucsd.edu>). These will be demonstrated in class (take notes, if needed):

- [*MLA International Bibliography \(MLAIB\)*](#)

Published by the Modern Language Association (U.S.)

Indexes scholarly journals and many scholarly books in and about all languages except ancient Greek and Latin in the fields of literary and textual criticism, literary theory, cultural studies, folklore, and selective coverage of linguistics, theater, film, and literary pedagogy. Some indexing goes back to the late 19th century.

- [*Annual Bibliography of English Language & Literature \(ABELL\)*](#)

Published by the Modern Humanities Research Association (U.K.)

Indexes scholarly journals and many scholarly books relating to literature in the English language and the English language itself published since approximately 1920.

2. Printed Bibliographies.

There are also *printed bibliographies* that are useful for Joyce studies. Here are a few:

3. Browsing Journals.

It is possible to browse directly in journals, either in print format or online. However, by not using one of the bibliographic databases above, you risk not finding references to relevant articles in other journals. Nevertheless, here are some journals that typically include scholarly and critical articles about the work of James Joyce:

James Joyce Quarterly, Vol. 44, 2006-present online in Project Muse. Older volumes in print only: PR 6019 .O9 A5 (7th floor of SSSL).
