

## WORLD SCIENTIFIC ONLINE JOURNAL SERVICE INSTITUTIONAL USER LICENCE

**1. By signing this license agreement** (the "Agreement"), the Subscribing Institution identified in the form below (the "Subscriber") agrees to the terms and conditions set forth in this Agreement. In turn, World Scientific Publishing Pte Ltd ("World Scientific") grants the Subscriber and Authorized Users (as defined in Clause 2 below) the right to access online versions of the Journals indicated below, subject to and on the terms and conditions of this Agreement.

Subscribing Institution: University of California, San Diego

Address: [text removed]

[text removed]

Subscriber Account No. (if known): Attached

If subscribing through an agency, please give name of agency: Fbsco/Swets

Contact Person responsible for administration of online journals:

Name: Christine Peters

Address: [text removed]  
[text removed]

Telephone: [text removed] Fax: [text removed]

Email: [text removed]

(Please print clearly. Notification that online access is active will be sent to this address. The Subscriber agrees to send notice of any changes to the particulars above to this e-mail address: [text removed])

For the purposes of this Agreement, World Scientific is acting on its own behalf and as a service provider to its publishing customer(s) mentioned below as the respective copyright owner(s) of the journals listed in the paragraphs below (the "Journals"). The "Online Journals" referred to in this Agreement are the electronic versions of the Journals to which the Subscriber maintains a valid and current paid institutional subscription (a "Institutional Subscription"). The Subscriber is to indicate the Journals to which the Subscriber has an Institutional Subscription by marking the appropriate boxes below. The Subscriber's indication by marking is subject to confirmation by World Scientific as well as subsequent amendments due to future Institutional Subscription purchases or cancellations by the Subscriber. The span of articles for specific Journals currently available online is also indicated below.

**Journals Published and to which Copyright ownership is claimed by World Scientific Publishing**

- Advances in Complex Systems
- American Journal of Chinese Medicine, The
- Analysis & Applications
- Asia-Pacific Biotech News – English Edition
- Asia-Pacific Journal of Operational Research
- Asian Case Research Journal
- Biophysical Reviews & Letters
- Chinese Annals of Mathematics
- Cosmos
- Coastal Engineering Journal

## **TERMS AND CONDITIONS**

### **2. Authorized Users**

World Scientific grants to the Subscriber and Authorized Users (as defined below) online access via the World Scientific Online Journal Service (the "WSOJS") to each Online Journal for which the Subscriber maintains an Institutional Subscription. This grant extends only to the Subscriber and such Authorized Users individually and may not be transferred to or extended to others.

For the purposes of this Agreement, "Authorized Users" means only the employees, faculty, staff and students officially affiliated with the Subscriber and persons granted legal access by the Subscriber to the Subscriber's library collections and facilities. The Subscriber and the Authorized Users must always use an Internet Protocol address ("IP Address") within the range identified in the Appendix to this Agreement. Authorized Users may be persons remote from the Subscriber's physical location whose access is administered from the Subscriber's site or campus, but not persons at remote sites or campuses with separate administrations.

The Subscriber will exercise reasonable vigilance and shall be responsible for all access control and security measures necessary to ensure that the Subscriber's IP Addresses are not used by persons other than the Subscriber or Authorized Users to access the WSOJS.

The Subscriber warrants and represents that it will inform Authorized Users of these terms and conditions. ~~The Subscriber will make every effort to inform Authorized Users of these terms and conditions.~~ Furthermore, the Subscriber will make every attempt to comply with or enforce these terms and conditions upon receiving information from World Scientific or any other source that reasonably indicates that one or more Authorized Users has violated these terms and conditions.

### **3. IP Addresses**

Authorized Users will be recognized and authorized by their IP Address. IP Addresses and/or ranges of IP Addresses of the Subscriber are indicated in the Appendix.

### **4. Permitted Use**

The Subscriber and Authorized Users are permitted access to the WSOJS as indicated in Clause 1 and 2 above, and may download, save, or print text, articles, abstracts, output, search results, or other information from the Online Journals ("Online Content") solely for the private use or research of the Subscriber and/or the Authorized Users.

The Subscriber and Authorized Users may only access the WSOJS in a way that conforms with all applicable laws and regulations.

The copyright owner of each Online Journal grants the Subscriber and Authorized Users permission to make brief quotations from the text of Online Journal articles provided that the Journal source is acknowledged, and to copy and transmit text from individual Online Journal articles in "person-to-person" and non-systematic scholarly exchanges of information between the Subscriber or Authorized Users and specific individuals.

Licensee may fulfill occasional requests from other institutions, a practice commonly called Interlibrary Loan. Licensee agrees to fulfill such requests in compliance with Section 108 of the United States Copyright Law (17 USC §108, "Limitations on exclusive rights: Reproduction by libraries and archives") and the Guidelines for the Proviso of Subsection 108(2g)(2) prepared by the National Commission on New Technological Uses of Copyrighted Works, including the right to supply interlibrary loan copies using secure electronic transmission.

The Subscriber specifically agrees that use by the Subscriber or Authorized Users other than indicated above is a breach of the terms and conditions of this Agreement.

Nothing in this License shall in any way exclude, modify or affect any of Licensee's statutory or common law rights under the copyright laws of the United States.

## **5. Prohibitions on Certain Uses**

Altering, recompiling, systematic or programmatic copying, reselling, redistributing, publishing or republishing (beyond such use as is allowed under Clause 4) of any Online Content, or any portion thereof, including without limitation, copyright, proprietary and/or other legal notices contained therein, in any form or medium, is prohibited. Systematic or programmatic downloading of Online Content (for example, downloading entire journal issues), the provision of service bureau redistribution services in relation to Online Content, printing of Online Content for fee-for-service purposes and/or the systematic making of print or electronic copies of Online Content for transmission to non-subscribers or non-subscribing institutions (such as inter-library loans) is prohibited. Licensee may fulfill interlibrary loan requests via post, fax or secure electronic transmission such as Ariel or its equivalent. Downloading portions of Online Content for the purpose of creating pre-loaded, systematic and persistent local copies (not including transient, dynamic caches of individually requested material) for redistribution is prohibited. All rights not expressly granted are reserved by the stated copyright owner of the Online Journal or by World Scientific.

## **6. Duration of Agreement**

This Agreement will become effective on receipt by World Scientific of the Agreement signed by an authorized agent of the Subscriber, and, subject to the terms and conditions of this Agreement, will remain in effect while the Subscriber maintains an Institutional Subscription. This Agreement will terminate:

- a. Following thirty (30) days' prior written notice by World Scientific to the Subscriber that any of the terms and conditions of this Agreement have been breached by the Subscriber, for any reason, knowingly or unknowingly, provided that the breach is not remedied by the Subscriber within the thirty (30) day notification period.
- b. Following thirty (30) days' prior written notice by World Scientific to the Subscriber of any change in the terms and conditions of this Agreement and the receipt by World Scientific of notice from the Subscriber in writing, e-mail or fax that the Subscriber does not accept such change. (In the absence of any such objection by the Subscriber, World Scientific's new terms and conditions shall apply).

This Agreement shall renew automatically for the term of any Institutional Subscription upon receipt by World Scientific of payment for that subscription.

## **7. Copyright**

The Online Journals and their Online Content, including abstracts, are copyrighted as indicated in Clause 1 or as indicated within the Journal or the Online Journal. Unauthorized copying or redistribution of any copyright-protected Online Journal or Online Content is a violation of copyright laws.

## **8. Failure of performance**

Following online access approval, the Subscriber and Authorized Users will be permitted to attempt online access to the WSOJS at any time. World Scientific will not be liable for any delay, downtime, transmission error, software or equipment incompatibilities, force majeure or other failure of performance. World Scientific will use commercially reasonable efforts to correct any material performance or content problems brought to its attention and may suspend performance pending such correction.

## **9. Official Version of Record**

World Scientific will use commercially reasonable efforts to ensure that the online versions of the Journals correspond in content with the print versions, but World Scientific does not guarantee that they do. In the event of any discrepancy between the print and online versions, the print version will be the official version of record.

## **10. Usage Rights of Lapsed Subscribers**

World Scientific will use reasonable efforts to retain in an archive all electronic information published by World Scientific. Starting with the 2004 subscription year, the Subscriber will be provided a 5-year access to the subscribed volumes, after which a small maintenance fee will be imposed for archive access. In addition, the Subscriber will be provided a complimentary 1-year access to the previous 4 volumes prior to the current subscription volume. Upon the lapse of any Institutional Subscription, the Subscriber will be given the option of purchasing a physical archive copy, for example in the form of a CD-ROM, of the content in the Online Journals published during the term for which an Institutional Subscription was maintained by the Subscriber (the "Physical Archive Article"). The Subscriber will be permitted to copy content from the Physical Archive Article to the Subscriber's information systems and to redistribute such content to

Authorized Users within a single library building. Any hardware or software required to view or distribute content from the Physical Archive Article will be the responsibility of the Subscriber. The definitions of Authorized Users and allowed and prohibited uses of Online Content as provided in this Agreement shall otherwise apply with all necessary modifications to the use of the Physical Archive Article. Upon lapse of any Institutional Subscription, no additional service is provided. Lost or damaged Physical Archive Articles will be replaced with copies in the then-current format for the then-current fee.

### **11. Disclaimer of Warranties; Limitation of Liability; Indemnification**

World Scientific warrants that it is entitled to grant the licenses granted in this Agreement, and is authorized to execute this Agreement on behalf of the publishing customers indicated in Clause 1. Except as set forth in the preceding sentence, World Scientific makes no warranty or representation of any kind, express or implied, with respect to the Online Journals and WSOJS, including their quality, originality, suitability, searchability, operation, performance, merchantability or fitness for a particular purpose.

World Scientific shall not be liable for: exemplary, special, direct, indirect, incidental, consequential or other damages arising out of or in connection with the licenses granted hereunder, the use of, the inability to use or errors in any Online Journal, World Scientific's performance under this Agreement, termination of this Agreement by World Scientific, viruses or bugs which may be contained in or caused by use of the WSOJS or the Online Journals or the loss of data, business or goodwill. In no event shall the total aggregate liability of World Scientific for any claims, losses or damages arising out of any breach or termination of this Agreement exceed the total amount paid by the Subscriber to World Scientific for the Print Subscription for the current subscription year in which such claim, loss or damage occurred, whether in contract, tort or otherwise, including without limitation, due to negligence.

No claim may be made against World Scientific unless the suit is filed thereon within one (1) year after the event giving rise to the claim.

World Scientific and the subscriber shall indemnify and hold each other harmless for any losses, claims, damages, awards, penalties, or injuries incurred, including reasonable attorney's fees, which arise from any alleged breach of the indemnifying party's representations and warranties made under this Agreement, provided that the indemnifying party is promptly notified of any such claims.

The indemnifying party shall have the right to defend such claims at its own expense. The other party shall provide assistance in investigating and defending such claims as the indemnifying party may reasonably request and have the right to participate in the defense at its own expense.

### **12. General**

This Agreement, excluding the Appendix but including Clause 1, any entries made to all accompanying forms prior to delivery by the Subscriber of this Agreement to World Scientific for signing shall constitute the entire agreement between the Parties and supersedes any and all prior or contemporaneous agreements, representations, warranties, and understandings between the Parties with respect to the specific subject matter of this Agreement.

The headings used in this Agreement are for convenience only and are not to be considered in construing the terms and conditions of this Agreement.

Subject to termination under Clause 6, this Agreement may be amended only by the consent (via mail, e-mail, or fax) of both parties. If World Scientific sends notice to the Subscriber of changes in the terms and conditions of this Agreement, lack of response by the Subscriber within a thirty (30) day period will be taken as acceptance of the new terms and conditions. Subscriber may not make any changes to this Agreement without written consent by World Scientific.

If for any reason, a court of competent jurisdiction finds any provision of this Agreement, or portion thereof, to be unenforceable, that provision shall be enforced to the maximum extent permissible so as to effect the intent of this Agreement, and the remainder of this Agreement shall continue in full force and effect and shall in no way be affected, impaired or invalidated.

Should there be a conflict between this agreement and any other web accessible terms and conditions, whether now known or hereinafter generated, then this Agreement controls.

---

I have read and agree to adhere to and abide by all the terms and conditions stated above, and I certify that I am authorized to sign this Agreement on behalf of the Subscribing Institution identified in Clause 1 above.

## APPENDIX INSTITUTIONAL IP ADDRESSES/RANGES

The World Scientific Online Journal Service has enabled IP-address-based access control for institutional subscribers. Each computer that accesses the Internet is assigned an IP address, commonly represented as four number groups separated by dots (eg 192.16.1.128). All computers on a local area network, or subnet, may have the first two or three number groups in common. Access to World Scientific's journal(s) from your institution will be authorized based on the IP addresses and/or ranges you provide. (It is recommended that you consult with your network administrator to determine your IP addresses, subnets, and other critical information about your institution's network configuration).

World Scientific will accept up to ten (10) IP addresses and/or ranges (Class B, Class C, and single station) via this form (attach additional sheets as necessary). Note that Class B requests will be subject to additional review by World Scientific. Please contact Webmaster at World Scientific at [text removed] if you need to register a proxy or caching server, or if you have any additional questions.

All information provided regarding your IP addresses will be verified by World Scientific, and your network contact (which must be provided below) will be contacted if additional clarification is necessary.

Please type your IP addresses/ranges in the following formats:

Class B Network: Enter the first two (network) numbers and use asterisks for the host addresses, ie, 140.108.\*.\*

Class C Network: Type the first three (network) numbers and an asterisk for the host addresses, ie, 192.16.11.\* (ranges are acceptable; type 202.40.130.\* - 202.40.138.\* to indicate Class C ranges).

Single Station(s): Type all four numbers, ie, 192.16.8.88 (ranges are acceptable; type 192.16.8.88 - 192.16.8.98 to indicate ranges of single stations).

IP Addresses and/or Ranges:

See attached	

Please enter your fully qualified domain name {the one registered with the Internet Corporation for Assigned Names and Numbers (ICANN)}:

\_\_\_\_\_

Please provide the following required network contact information:

Name: \_\_\_\_\_ Christine Peters \_\_\_\_\_  
E-mail Address: \_\_\_\_\_ [text removed] \_\_\_\_\_  
Telephone: \_\_\_\_\_ [text removed] \_\_\_\_\_  
Fax: \_\_\_\_\_ [text removed] \_\_\_\_\_

Please check here if additional IP addresses are listed on attached sheet(s).
