Forman, Will

Will Forman Films, 1960-1971

Physical Description: 47 16mm film titles on 51 DVDs (some are duplicates)

Description: Forty-seven U.S. Navy films regarding submersibles. Many films are on the development of Deep-Jeep a two man submersible, at the Naval Ordnance Test Station (NOTS) located at China Lake, California. Some films in this collection depict dives by the Cousteau Soucoupe submersible, and Japanese submersibles.

Forman loaned his collection of 16mm films to SIO Archives, which created copies via projection and digital video, onto DVDs.
