Kelco / ISP Alginates

Kelco/ISP Alginates Photographs, 1912-1991

BULK DATES: 1950-1991

PHYSICAL DESCRIPTION: 6 mss, 6 1/2 mss, Oversize (35mm slides, photographic prints, CDs)

DESCRIPTION: Black/white and infrared aerial photos of kelp beds from Baja California to Central California including the Southern California Channel Islands, for various years. Glantz was the Site General Manager of ISP Alginates San Diego at the time of the plant closure. ISP Alginates is the later corporate name for Kelco. Glantz was given the authority as the senior site manager to donate ISP Alginates' San Diego historical materials as appropriate. He donated all people, building, and manufacturing photos to the San Diego Historical Society and all harvesting vessel photos and other memorabilia to the San Diego Maritime Museum. This gift to SIO Archives was not part of the sale of ISP Alginates UK to FMC; Glantz was given the authority by ISP Alginates San Diego to donate these materials to the institution of his choice.
