PROCESSING RECORD
SCRIPPS INSTITUTION OF OCEANOGRAPHY ARCHIVES

Scripps Institution of Oceanography. Marine Physical Laboratory

SIO Marine Physical Laboratory Photographs, 1950-1986

Physical Description: 7 mss, 37 shoe boxes, 6 index card boxes, 1 small box

Arrangement of Collection: Arranged in six series: Photographic Negatives; Lantern Slides; Tasaday Expedition Stamp; Photographic Prints; 35mm Slides; Marine Physical Laboratory Illustrations Master Record.

Description: The accession consists of the central photographic negative, print, and slide files and the index created by the Marine Physical Laboratory in 1950 to describe them. The accession includes all photographic images filed by MPL from 1950 to 1986.

The accession consists largely of MPL's master set of photographic negatives. The accession also includes a small number of unmarked lantern slides, 1,981 photographic prints, and two cartons of 35mm slides dated 1968-1989. The collection includes a stamp from SIO's Tasaday expedition dated 1973-1974.

The photographic negatives series includes images of instruments designed at MPL, but it also includes negatives of line drawings used in MPL reports, blueprints and other drawings of instruments, and other images documenting the work of MPL. Each negative is labeled with a negative number and date. MPL generally kept two negatives for each image.

The accession includes a card index to MPL images known as the "Marine Physical Laboratory Illustrations Master Record." Each index card lists a photographic negative number and any corresponding numbers for MPL drawings, photographic prints or slides. The index provides a caption/identification for the image, and the name of the MPL person who requested it. The index lists any uses of the image in presentations, or manuscripts, including the numbers of any reports that include the image.

The series of 35mm slides includes images of research vessels, graphs, and charts. The majority of the slides are labeled with a number that corresponds to information on the MPL Illustrations Master Record. Photographic prints are marked, "ADA Storage on Dock, 1981."

MPL discontinued the practice of maintaining a master photographic negative file in 1987.
