ARCHIVES

Scripps Institution of Oceanography

Scripps Institution of Oceanography Photographs, 1900-2000

Physical Description: Approximately 18-1/2 manuscript boxes and 25 shoe boxes of black & white glossy prints and negatives.

Arrangement: Arranged into sub-collections: At Sea, Campus, Expeditions, Group Events, Instruments, Portrait Photographs and Ships.

Description: Various Scripps Institution of Oceanography personnel took photographs from the earliest times. This collection was compiled from SIO photographs available at the time of the founding of Scripps Archives in 1981, in order help researchers find the high interest and most requested images quickly. After 1949, photographs in this collection were taken by the SIO Photographic Laboratory personnel, but prints and negatives for this collection were kept separately from the Photographic Laboratory negatives under accession number 85-8.

Scripps Institution of Oceanography Photographs, 1900-2000
