The UC San Diego Library’s Online Catalog, Roger, is available at: roger.ucsd.edu

Use Roger to find out if the Library owns an item, for both print and electronic versions of publications. If the item you are looking for is a print item at Geisel Library or Biomedical Library buildings, and you are based at Scripps Institution of Oceanography (SIO), you can use the Request feature to have the item delivered to the SIO campus “Pickup Location” (currently not available due to COVID-19 campus closures).

Please note: While the Library & SIO buildings are closed (due to COVID-19), please use the “We Can Scan It!” button, to the right of the Roger item record you are viewing (sample image below), for library staff to scan the book chapter, or article, that you need.

Step One: Find the item you are looking for in Roger. Use a Keyword search, or a Title search if you know the book or journal title (there are no journal articles listed in Roger, only links to e-journals & e-books).

Step Two: Click on the Request link, or the “WE CAN SCAN IT” button on the right side of the screen. Then enter your information in the Request Chapter/Article Scan form (sample below)
In most cases, items you request will be scanned to PDF within 2-4 business days, depending on ability of Library staff to enter the campus & Library buildings, and the volume of requests received at that time.

We are hoping that book checkout and delivery service to SIO will resume in the near future.

If you have questions about managing your Library Account, or for more information on borrowing items from the UC San Diego Library, please see:
