

VANDERBILT UNIVERSITY

Vanderbilt's LAPOP (Latin American Public Opinion Project) Institutional Annual Subscription Renewal Licensing Agreement for AmericasBarometer Data Sets

Name of Subscribing Institution: University of California, San Diego

ORIGINAL AGREEMENT:

Whereas the Licensors and Licensee entered into a **Licensing Agreement for AmericasBarometer Data Sets** which started on 5/14/2016 (date) and expired one year from the start, on 5/13/2017 (date).

RENEWAL TERM:

The Licensors and Licensee hereby agree that upon expiration of the current subscription period, the Original Agreement shall be automatically renewed for successive one-year terms unless either Licensee gives written notice of its intent not to renew the Agreement, or Licensors give written notice to its intent to modify or not to renew the Original Agreement, no later than thirty (30) days prior to the end of the then-current term. Licensors will notify Licensee of renewal fees no later than sixty (60) days prior to the end of the then current term. If renewal fee is not received by Licensors within sixty (60) days of Licensee receiving the invoice, this Agreement shall be rendered null, void and without effect.

TERMS AND CONDITIONS:

All the terms and conditions of the Original Agreement shall remain in full force and effect.

DATA ACCESS

The Subscriber shall choose between two options to access the data sets. The first and preferred method is via IP authentication, as it is the most convenient option for both Subscribers and LAPOP. The second is using a username and password to log in. Either option is only for use by the Subscriber and its Authorized Users. The username and password will allow for unlimited simultaneous users. The username and password will expire upon termination of the agreement.

IP Authentication Requirements:

Your institution must have a fixed IP address or range of IP addresses through which it connects to the internet (individual computers may have dynamic server-assigned addresses as long as they use a gateway with a static address to access the internet). Dial-up access and most home broadband services are not suitable. Ideally your institution should have a website/intranet from which there can be a link to the AmericasBarometer data base. Bear in mind that anyone who has access to a computer within the specified range can access the AmericasBarometer.

Once your IP address(es) or IP range(s) are sent to LAPOP, Subscriber access will be set up via IP authentication.

Username / Password Log In

For those who have Authorized Users who will need to access the data remotely, a username and password can be set up.

Indicate which subscription you are renewing below and how you would like to access the data:

- A. If you are located in the U.S., Canada, Japan, Western Europe or in a European Union member country¹, and you are a government institution, multi-lateral public institution, think tank, or a degree-granting Institution of higher learning that offers a Ph.D. or Masters in political science (or government), international relations, or public policy, choose:

¹ Individuals and institutions located in the U.S., Canada, Japan, Western Europe and European Union member countries have a different type of subscription than those in other countries. This allows us to discount the cost of data sets to certain countries, providing more fair access. Countries in the European Union or who are considered to be in Western Europe are: Austria, Belgium, Bulgaria, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, and the United Kingdom.

☒ Subscribe to the AmericasBarometer survey series for 2004, 2006, 2008, 2010, 2012, and 2014 for **one price** of [text deleted] New survey years will be added when available.

☒ Access via IP authentication

☐ Access via username/password log in

B. If you are located in any other part of the world, or if you are a degree-granting institution of higher learning that does not offer a Ph.D. or Masters in political science (or government) , international relations, or public policy,² choose:

☐ Subscribe to the AmericasBarometer survey series for 2004, 2006, 2008, 2010, 2012, and 2014 for **one price** [text deleted] years will be added when available.

☐ Access via IP authentication

☐ Access via username/password log in
