Dear Friends and Supporters,

Your labors are not going unnoticed! We are being felt here in Philadelphia. Grape sales are down slightly from last year even though the crop is much bigger than last year's. But if we are to succeed we need to work fast to bring down the sales much more in the last part of the season.

The times are critical and if we are not able to stop the flow of grapes into Philadelphia this month it means that we will have to wait another long cold winter, which might mean our defeat.

Your previous concern and efforts for the cause gives us faith that you will respond to our pleas for a redoubling of energies. We still find that many approachable people have not heard of the boycott! Please help us spread the word.

We are sending you some new materials. If you can use more leaflets and the film "Decision in Delano," a 30-minute color film on the beginnings of the movement, please give us a call at PE 5 - 7078.

Thank you for your support.

VIVA LA CAUSA!
