

# Farm Workers Have A Modest Dream: guaranteed secret ballot elections!

DOES JIMMY CARTER SUPPORT THAT DREAM?

The dream was fulfilled for a few historic months last year: for the first time in our nation's history farm workers voted in union representation elections under Governor Brown's farm labor law of 1975.

California's big corporate growers tried to intimidate the workers into voting against the UFW. When that strategy failed, agribusiness used a minority of legislators to black refunding of the farm worker election law. Elections stopped on February 6, 1976.

The time has come to guarantee the rights of farm workers. The time has come to fulfill the farm worker's dream!

PROPOSITION 14 is the only way to guarantee free, secret ballot elections for farm workers.
