Richard A. Haubrich Papers, 1969-1984

PHYSICAL DESCRIPTION: 1 record center carton

DESCRIPTION: The collection consists of committee meetings and reports, personal correspondence, class notes, travel information, photographs and scientific papers of Richard A. Haubrich. Haubrich worked at SIO's Institute of Geophysics and Planetary Physics. One of Haubrich's interests was to measure the tilt of the earth by ocean loading and investigate possible causes of the wobble of the earth.
