Scripps Industrial Associates

Scripps Industrial Associates Records, 1969-1991

PHYSICAL DESCRIPTION: 29 mss

DESCRIPTION: Records of the Scripps Industrial Associates, including files on SIA corporations, press releases, & seminars; records kept by George Shor, John Bennett, & the Geological Data Center; & audio recordings & photographs.

SIA records are dated 1969-1991, but the bulk of the records document the associates during the period 1974-1985.

These records consist of five series: Company Series; Reprint Series; Short Course and Seminar Series; Subject Files; Tapes & Films Series.

The records do not include the charter of the organization, budgets or the minutes of meetings of the Advisory Committee. These policy documents are filed in the records of the SIO Office of the Director (Nierenberg). The records in this collection largely consist of membership records and records of benefits received by SIA members.

The Company Series includes correspondence, memoranda on membership fees and other material filed under the names of company members of SIA.

The Reprint Series contains copies of reprints sent to SIA members arranged alphabetically by author. This series also includes some but not all reprints sent to members.

The Short Course and Seminar Series contain agendas, notes and handouts for seminars and courses to which SIA members were invited. It also includes costs and receipts for these events.

Subject Files Series consists of John E. Bennett's chronological files dated July 1974-April 1975, press releases sent to SIA members, proposals and funding requests submitted to the SIA Advisory Committee, and requests received by SIO from SIA companies. The series also includes George Shor's "SIA Log" dated 12 May 1978 to November 13, 1990, which records contact, phone calls and memoranda concerning SIA during that period.

The Tapes and Films Series includes audio cassette tape recordings, still photographs and video tape of SIA seminars. It also contains some slides projected at SIA seminars.

Related Collections: There are about six linear inches of files on Scripps Industrial Associates in the records of the SIO Office of the Director (Nierenberg) in boxes 59 and 60. Material in these files include early documents about the establishment of SIA, SIA Advisory Committee minutes, budgetary material and reports of the program manager, John Bennett. There is one folder of material on Scripps Industrial Associates in SIO Subject Files, Box 17, folder 38. This folder contains pages listing the benefits of membership.

Provenance: The files that comprise this collection were received from two main sources. George Shor annually transferred his non-current SIA files to SIO Archives beginning in the 1970's. By 1996, this material comprised two cubic feet and consisted largely of agendas and handouts from SIA seminars. On November 7, 1995, the Geological Data Center (Stuart Smith/Nirginia Wells) decided to transfer four bankers boxes of non-current SIA files, including printouts of computer membership files, to SIO Archives. On September 19, 1996, GDC found and transferred to SIO Archives another two boxes of SIA files. Both bodies of records documented SIA activities for the same period. The SIA records received from George Shor were arranged chronologically. The SIA records received from the Geological Data Center were arranged in five series. Their original order was maintained, the Shor files were added to the Seminar Series.
